

**GOODY CLANCY AND ELKUS MANFREDI ARCHITECTS  
ARE AWARDED A NEW PROJECT AT THE OHIO STATE UNIVERSITY**

Goody Clancy, in collaboration with Elkus Manfredi Architects, is pleased to announce we have been awarded the planning and phase 1 services for The Ohio State University North Residential District Transformation. The project, which is focused on developing a vibrant on-campus community of learning for OSU undergraduates, is anticipated to set new benchmarks in cost efficiency, approach to sustainability, and transforming the undergraduate experience through new housing and programs designed to increase undergraduate retention on campus, engagement and academic success. As an important north gateway to the OSU campus, the new residential district will be designed to strengthen connections with the larger OSU community and the surrounding district and reinforce a dynamic innovation city.

*Total Project Scope*

3,200 new beds and associated program space

*Initial Scope*

Master Planning & Phase 1 Schematic Design Services (includes Residence Halls for 800 beds, dining facility, and possibly a Recreation Center)

*Roles*

Goody Clancy – Prime; Master Planning lead, Design Architect

Elkus Manfredi Architects – Master Planning support, Design Architect
