

WATERWAY SQUARE

The Woodlands, Texas

Client: The Woodlands Development Company

The Woodlands, home to over 85,000 people, is a 28,000-acre master planned community located north of downtown Houston. Elkus Manfredi Architects is currently designing Waterway Square for The Woodlands. The Square will include a mix of retail, office, residential, and hotel space surrounding a new urban park.

Elkus Manfredi is responsible for the following projects:

Residential Wrap

Conceptual and schematic design for a residential building wrapping the parking garage that overlooks Waterway Square.

Super Block – Building A

Exterior revisions.

Building B

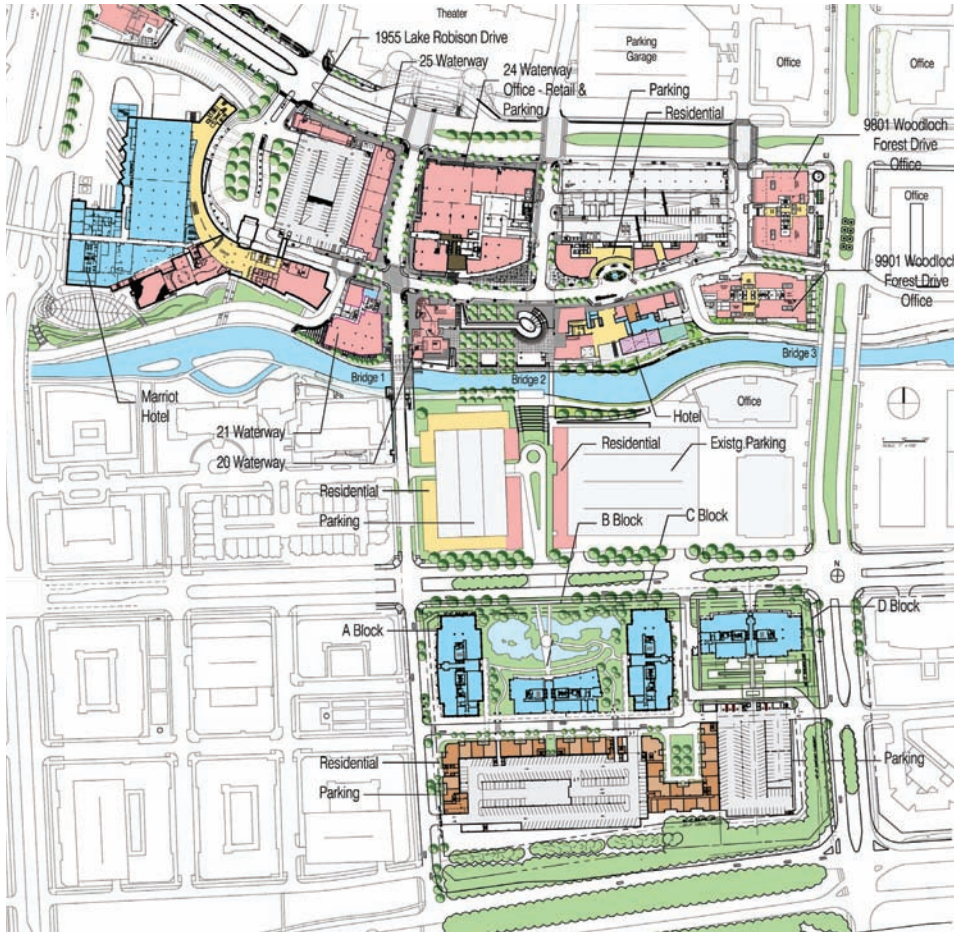

Conceptual and schematic design for the Building B office structure.

Building C

Exterior revisions.

Building D

Conceptual and schematic design for the Building D office structure.
